

What Makes a Directive to the Recipient (DHH)?
Comprehensive Planning Committee
Thursday, June 15, 2023

Directives to DHH (the recipient) can be about any of the following:

- **Specific subpopulations**
- **Specific geographic areas**
- **How services should be provided** (service provision)
- **Types of organizations** (e.g. agencies that receive funding for and link both care and prevention services, CBO that service a particular subpopulation, nonprofit agencies, etc... **NEVER naming specific agencies**)

Recommendations from Positive Committee

1. Investigate capacity & feasibility for funding a new service for seniors living with HIV, such as Home Health Care.
2. Investigate abilities to cover certain necessities for seniors such as fall protection devices, orthopedics slippers, depends, etc.
